

SWING

Swing Armrest

Swing armrest is easy to use with a number of options for varied seating positions. It gives your upper body a comfortable and stable support.

The armrest has a soft padding and can be upholstered in the same material and colour as your Stool.

Swing armrest fits all our Stools. When combined with our Perfect Saddle Stool, the armrest can be used as a temporary backrest.

The armrest is easily converted to suit both left and right handed users.

The Support Stool has a uniquely designed armrest, Swing mini, which has the same features as Swing but is smaller in size in order to fit the beautiful and stylish design of the Support Stool.

Perfect with Swing
